Amendments to the Claims

This listing of claims will replace all prior versions and listing of claims in this application:

Listing of Claims:

1. (Currently Amended) An anti-theft luggage rack for two-wheeled vehicles comprising:
 - supporting rods that connect said luggage rack to the two-wheeled vehicle;
 - a rectangular body having supporting elements and connected to said supporting rods, wherein said supporting elements further comprise semicircular moldings separated by respective tubes;
 - an upper rectangular bag attached to the supporting elements of said rectangular body wherein said upper rectangular bag also serves to cover a saddlebag locking ~~mechanism~~ arrangement;
 - two opposing rigidly supported vertical side saddlebags, with each saddlebag having a rigid locking tubular handle, wherein said opposing side saddlebags are also attached to said rectangular body;
 - a U-shaped rigid locking rod with a cylindrical lock and a key providing said saddlebag locking ~~mechanism~~ arrangement;
 - wherein said upper rectangular bag and said opposing side saddlebags are attached to the supporting elements of said rectangular body via said U-shaped rigid rod by sliding said U-shaped rigid rod through said semi-circular moldings; then said anti-theft luggage rack can be locked into place on the two-wheeled vehicle with said cylindrical lock and key. and locked into placed with the cylindrical lock and key.
2. (Original) The anti-theft luggage rack of claim 1 wherein said rectangular bag has a rigid internal base.
